CONFERENCE ATTENDEE
CYBERSECURITY TIPS

When you are working on the road or attending a conference, here are some important things to keep in mind:

⚠️ Don't connect your devices to any unknown Wireless networks and do not connect unknown devices, such as USB drives or charging stations, to your devices.

⚠️ Be cautious with QR codes to make sure it's taking you to the expected site.

⚠️ Be cautious of eavesdropping when discussing sensitive information, and ensure your screen is not easily viewed when using your device. Lock your computer and phone when it is not in use.
